PROFESSIONAL SUMMARY

Education administration and school operations professional with more than five years of experience in Dapodik, ARKAS, academic administration, student records, education reporting, digital examinations, and school technology support.

Experienced in managing approximately 120–130 active student records, school financial administration, academic documentation, and administrative support for 12 teachers and 1 administrative staff member. Accustomed to coordinating with school leadership, teachers, students, parents, education authorities, other school operators, and external vendors.

Also experienced in teaching Physical Education and coaching the school basketball extracurricular program. Detail-oriented, communicative, and able to manage administrative, academic, and technical responsibilities in a school environment.

CORE COMPETENCIES

School Administration • Dapodik • ARKAS • Academic Administration • Student Records • Education Reporting • Document Control • Computer-Based Examination Support • School IT Support • Stakeholder Coordination • Physical Education • Student Development

PROFESSIONAL EXPERIENCE

SMP PGRI 13 Bogor

Education Administration & School Operations Specialist

January 2021–June 2026 | Bogor, Indonesia

- Managed approximately 120–130 active student records through Dapodik, including data entry, correction, validation, synchronization, maintenance, and reporting.
- Reviewed and corrected historical student records to improve data accuracy, completeness, and consistency.
- Managed the ARKAS financial administration cycle, including budget input, bookkeeping, General Cash Book administration, expenditure tracking, reconciliation, period closing, and reporting support.
- Managed academic administration, student records, recurring templates, correspondence, and digital school archives.
- Developed a lightweight academic database using HTML and Firebase to centralize student-grade information and support teacher access through desktop and mobile devices.
- Supported computer-based examinations as a proctor and technical operator, including device preparation, network checks, system access, and troubleshooting.
- Provided technical support for Wi-Fi, laboratory computers, hardware, software, CCTV, servers, Interactive Flat Panels, and digital learning devices.
- Supported 12 teachers and 1 administrative staff member with data, documents, systems, and daily operational requirements.

- Coordinated with school leadership, teachers, administrative staff, students, parents, education authorities, other school operators, and vendors.
- Taught Physical Education, Sports and Health and coached the basketball extracurricular program, focusing on discipline, teamwork, physical activity, and student development.

SELECTED ACHIEVEMENTS

- Reduced several manual administrative processes from multi-day completion to same-day processing or completion within hours.
- Reduced recurring document completion time to approximately 30–120 minutes through standardized templates and improved digital workflows.
- Developed databases, templates, folder structures, and workflow documentation that remained usable by teachers and the next school operator after the role transition.

PREVIOUS EXPERIENCE

Marketplace Merchandiser — PT Digital Multi Niaga

November 2020–January 2021

Sales & Marketing Manager — Cipta Kreasi Karya Indah
