PROFESSIONAL SUMMARY

Administrative operations and back-office professional with 9+ years of cross-industry experience in document control, records management, data administration, financial administration, workflow improvement, and operational support. Experienced in organizing fragmented records, improving data accuracy, standardizing recurring documents, and developing practical digital workflows. Strong ability to support multiple stakeholders in structured, SOP-driven environments.

CORE COMPETENCIES

Administrative Operations | Back-Office Support | Document Control | Records Management | Data Entry & Validation | Digital Filing | Workflow Improvement | Financial Administration | Reporting Support | Stakeholder Coordination | User Support | IT Troubleshooting

PROFESSIONAL EXPERIENCE

SMP PGRI 13 Bogor — Bogor, Indonesia

Administrative & School Operations Specialist
January 2021 – June 2026

- Managed end-to-end administrative data operations for approximately 120–130 active student records through Dapodik, including data entry, correction, validation, synchronization, maintenance, and reporting.
- Managed financial administration through ARKAS, including budget input, bookkeeping, General Cash Book administration, realization tracking, period closing, and reporting support.
- Reorganized fragmented administrative files into structured digital folders with standardized naming conventions, document classifications, and reusable templates.
- Performed data cleansing and correction of legacy records to improve accuracy, consistency, and reliability of administrative information.
- Developed a lightweight internal academic database using HTML and Firebase, enabling centralized access for multiple users through desktop and mobile devices.
- Created reusable Microsoft Word and Excel templates for recurring reports, certificates, letters, and administrative documents.

- Reduced several manual workflows from multi-day completion to same-day processing or completion within hours.
- Reduced completion time for several recurring documents to approximately 30–120 minutes, depending on complexity.
- Supported 12 teachers and 1 administrative staff member through improved document access, data workflows, system guidance, and operational assistance.
- Provided technical support for Wi-Fi, networks, laboratory computers, hardware, software, CCTV, servers, Interactive Flat Panel devices, and digital examination systems.
- Coordinated with school leadership, teachers, staff, parents, education authorities, other operators, and external vendors to resolve administrative and operational issues.
- Prepared folder structures, templates, and workflow documentation that remained usable by other staff members and the next operator after the role transition.

EARLY CAREER EXPERIENCE

Cross-Industry Operations Roles

2016 – 2021

- Gained operational experience in retail, customer service, ticketing, logistics administration, back-office support, digital marketing, merchandising, and a small food and beverage business.
- Developed practical skills in data handling, document preparation, customer service, reporting, coordination, daily operations, and SOP compliance.
